

PATENT ASSIGNMENT AGREEMENT

This Patent Assignment Agreement (this “**Agreement**”) is made and entered into this 14th day of July, 2020 by and between Gilead Sciences, Inc., a Delaware corporation (on behalf of itself and its Affiliates, “**Seller**”), and Kronos Bio, Inc., a Delaware corporation (“**Buyer**”). Buyer and Seller are sometimes referred to herein individually as a “**Party**” and collectively as the “**Parties**”. Capitalized terms used herein and not otherwise defined shall have the meaning ascribed to them in the Purchase Agreement (as hereinafter defined).

WHEREAS, Seller and Buyer have entered into that certain Asset Purchase Agreement dated as of July 14, 2020 (as amended, restated or supplemented from time to time, the “**Purchase Agreement**”), pursuant to which, among other things, Seller has agreed to enter into this Agreement in order to assign to Buyer, Seller’s right, title and interest, as of the Closing Date, to the Transferred Patent Rights (as defined below) set forth on Schedule 1.

WHEREAS, Sections 2.2.1.4 and 2.2.2.3 of the Purchase Agreement contemplate that the Parties shall deliver this Agreement at the Closing.

NOW, THEREFORE, in consideration of the mutual promises contained in the Purchase Agreement and this Agreement, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged:

1. Seller hereby sells, assigns, transfers and conveys to Buyer all of Seller’s right, title and interest in and to those patent rights listed on Schedule 1 hereto, including the right to claim priority from the same in the United States and all foreign countries, and to claim the priority from the same as provided by the Paris Convention, together in each case with all registrations, applications therefor, patents (as applicable) issuing from any applications therefor, and renewals and extensions of the foregoing in the United States and for all foreign countries that are or may be secured under the laws of the United States and all foreign countries, including any division, renewal, continuation in whole or in part, substitution, conversion, reissue, reexamination, prolongation or extension thereof, now or hereafter in effect, for Buyer’s own use and enjoyment as fully and entirely as the same would have been held and enjoyed by Seller if this assignment and sale had not been made, together with all income, royalties or payments due or payable as of the Effective Date or thereafter, including all claims for damages by reason of past, present or future infringement, misappropriation or other unauthorized use of such patents with the right to sue for and collect the same for Buyer’s own use and enjoyment (collectively, the “**Transferred Patent Rights**”). Seller hereby waives and agrees not to enforce any rights of attribution and integrity and other moral rights Seller may have in the Transferred Patent Rights.

2. Seller hereby authorizes and requests the United States Commissioner of Patents and Trademarks and any other applicable government authority to record Buyer as the buyer and owner of the Transferred Patent Rights, and issue any and all registrations thereon to Buyer, as buyer of Seller’s right, title and interest in, to and under the same, for the sole use and enjoyment of Buyer.

3. This Agreement is executed and delivered pursuant to the Purchase Agreement. Nothing in this Agreement, express or implied, is intended to or shall be construed to modify, expand or limit in any way the terms of the Purchase Agreement. To the extent that any provision of this Agreement conflicts or is inconsistent with the terms of the Purchase Agreement, the Purchase Agreement shall govern.

4. If any one or more provisions of this Agreement is held to be invalid, illegal or unenforceable, the affected provisions of this Agreement shall be curtailed and limited only to the extent

necessary to bring it within the applicable legal requirements and the validity, legality and enforceability of the remaining provisions of this Agreement shall not in any way be affected or impaired thereby.

5. This Agreement shall bind and inure to the benefit of the successors and permitted assigns of the Parties hereto.

6. Any notice, request or other document to be given hereunder to any Party hereto shall be given in the manner specified in Section 10.5 of the Purchase Agreement.

7. This Agreement may be amended by the Parties hereto at any time by execution of an instrument in writing signed by both Parties. A Party's consent to or waiver, express or implied, of any other Party's breach of its obligations hereunder shall not be deemed to be or construed as a consent to or waiver of any other breach of the same or any other obligations of such breaching Party. A Party's failure to complain of any act, or failure to act, by the other Party, to declare the other Party in default, to insist upon the strict performance of any obligation or condition of this Agreement or to exercise any right or remedy consequent upon a breach thereof, no matter how long such failure continues, shall not constitute a waiver by such Party of its rights hereunder, of any such breach, or of any other obligation or condition. A Party's consent in any one instance shall not limit or waive the necessity to obtain such Party's consent in any future instance and in any event no consent or waiver shall be effective for any purpose hereunder unless such consent or waiver is in writing and signed by the Party granting such consent or waiver.

8. This Agreement and its effect are subject to and shall be construed and enforced in accordance with the law of the State of New York, without regard to its conflicts of laws that would require the application of any other Law. Each of the Parties hereby irrevocably and unconditionally consents to submit to the exclusive jurisdiction of the federal courts located in the Eastern District of the State of New York for any matter arising out of or relating to this Agreement and the transactions contemplated hereby, and agrees not to commence any litigation relating thereto except in such courts. Each of the Parties hereby irrevocably and unconditionally waives any objection to the laying of venue of any matter arising out of this Agreement or the transactions contemplated hereby in the courts of the State of New York and hereby further irrevocably and unconditionally waives and agrees not to plead or claim in any such court that any such matter brought in any such court has been brought in an inconvenient forum. The Parties agree that a final judgment in any such matter shall be conclusive and may be enforced in other jurisdictions by suits on the judgment or in any other manner provided by law. Any proceeding brought by either Party under this Agreement shall be exclusively conducted in the English language.

9. This Agreement, the other Ancillary Agreements, the Purchase Agreement, the schedules and exhibits hereto and thereto, the CDA and the documents and instruments and other agreements among the parties thereto and hereto constitute the entire agreement among the Parties with respect to the subject matter hereof and supersede all prior agreements and understandings, both written and oral, among the Parties with respect to the subject matter hereof.

10. This Agreement may be executed in counterparts by a single Party, each of which when taken together shall constitute one and the same agreement, and may be executed through the use of facsimiles or .pdf documents. Counterparts may be delivered via facsimile, electronic mail (including pdf or any electronic signature complying with the U.S. federal ESIGN Act of 2000, Uniform Electronic Transactions Act or other applicable law) or other transmission method and any counterpart so delivered shall be deemed to have been duly and validly delivered and be valid and effective for all purposes.

IN WITNESS WHEREOF, the undersigned have executed this Patent Assignment Agreement as of the date first set forth above.

GILEAD SCIENCES, INC.
